7. **NEW BUSINESS**

A. Approval of Award for Construction Management Services for GIAA Terminal Aircraft Apron & Taxiway Rehabilitation - RFP No. RFP-002-FY19

The first item discussed was the approval of award for Construction Management Services for GIAA Terminal Aircraft Apron & Taxiway Rehabilitation. Airport Services Manager, Ms. Jean Arriola provided background information to the Board on the referenced RFP including the scope of services, contract term, dates of advertisement of the RFP, proposal submission deadline, and the number of interested proposers. A total of twenty-two (22) firms showed their interest by obtaining the RFP package and five (5) firms responded by submitting proposals on or before the submission deadline. An evaluation committee appointed by Executive Manager Ada was established to evaluate the five (5) proposals.

The proposal was evaluated on a point system assigned for each criteria identified in the RFP package. As a result of the committee's evaluation, the selected firms in order of their ranking are as follows:

1. Proposer A
2. Proposer B
3. Proposer C
4. Proposer D
5. Proposer E

The term of the contract is up to five (5) years from the issuance of the Notice to Proceed, subject to the availability of funding. Said contract will be funded under an AIP grant, with a cost share of 90% by FAA, and 10% by GIAA.

Management recommends that the Board allow Proposers A & B to submit their completed Tax Certifications. Management recommends that the Board approve the ranking results and the contract award to Proposer A, subject to Proposer A’s submission of a completed Tax Certification and negotiation of fair and reasonable fees to be submitted by the proposer at a time and format determined by GIAA. If GIAA is unable to negotiate a contract with the highest ranked proposer, the Executive Manager or designee, may enter into negotiations with the next most qualified proposer, consistent with the Guam Procurement Law Regulations.

Brief discussion followed on the term of the project, with Director Belanger asking if there is a possibility of the project being delayed or extended. Mr. Frank Santos informed the Director that assuming no changes, it will be for 365 days plus thirty (30) to sixty (60) days for close out. However there are discussions with the FAA on increasing to thirty (30) months. Should the project be delayed, negotiations with the construction manager would take place.
Chairman Sobti inquired if an extension occurs, does it require Board approval. The Board was informed that if there is no appropriation to cover the extension then Board approval is required. The Comptroller added that funds have to be available.

After further discussion, on motion duly made by Director Belanger, seconded by Director Weakley, the following resolution was unanimously approved:

**Resolution No. 19-34**  
The Board hereby approves the ranking results as presented and the contract award to Proposers A for Construction Management Services for GIAA Terminal Aircraft Apron & Taxiway Rehabilitation - RFP No. RFP-002-FY19, subject to Proposer A’s submission of a completed Tax Certification, Management’s negotiation of fair and reasonable fees, and review by legal counsel.

Ms. Arriola informed the Board that Proposer A is HTD Pacific.

**B. Approval of Award for Construction Management Services for Runway 6L/24R Rehabilitation – RFP No. RFP-003-FY19**

The next item discussed was the approval of award for Construction Management Services for Runway 6L/24R Rehabilitation. Ms. Arriola provided background information to the Board on the referenced RFP including the scope of services, contract term, dates of advertisement of the RFP, proposal submission deadline, and the number of interested proposers. A total of eighteen (18) firms showed their interest by obtaining the RFP package and three (3) firms responded by submitting proposals on or before the submission deadline. An evaluation committee was established to evaluate the three (3) proposals. The proposals were evaluated on a point system assigned for each criteria identified in the RFP package. As a result of the committee’s evaluation, the selected firms in order of their ranking are as follows:

1. Proposer A  
2. Proposer C  
3. Proposer B

The term of the contract is up to five (5) years from the issuance of the Notice to Proceed, subject to the availability of funding. The referenced contract will be funded under an AIP grant, with a cost share of 90% by FAA, and 10% by GIAA.

Management recommends that the Board approve the ranking results and the contract award to Proposer A, subject to negotiations of fair and reasonable fees to be submitted by the proposer at a time and format determined by GIAA. If GIAA is unable to negotiate a contract with the highest ranked proposer, the Executive Manager or designee, may enter into negotiations with the next most qualified proposer, consistent with the Guam Procurement Law Regulations.
After further discussion, on motion duly made by Director Weakley, seconded by Director Belanger, the following resolution was unanimously approved:

Ms. Arriola informed the Board that Proposer A is SSFM International, Inc.

C. Approval of Board Resolution No. 19-36: Bond Refunding

Next on the agenda was the refunding of GIAA Bonds, which was presented by the Comptroller. Mr. Rios informed the Board that currently GIAA’s enabling statute allows for the refunding of all prior bonds. The resolution approves the amendment of GIAA’s enabling statute to allow for partial refunding as opposed to all bonds being refunded. The partial refunding is worth $2M in present value savings, 9.38%, the amount of callable bonds to be refunded is $21.4M. The GEDA Board has authorized GEDA Management to pursue the refunding.

Executive Manager Ada announced that this Board action is necessary because the Legislature will not entertain a bill to amend GIAA’s enabling statute unless there is a resolution from the Board authorizing such amendment.

without the approval by *I Lihesluran Guahan* of the terms and conditions of the bonds.

“(a) The Board may authorize the issuance of refunding bonds from time to time for the purpose of refunding any or a portion of bonds then outstanding and issued under this Article, whether or not such outstanding bonds have matured or are then subject to redemption. VANUATU (Vanuatu Daily Post) - Vanuatu Commissioner of Police Albert Nalpini has been fired.

President Obed Moses Tallis made the order of Nalpini's removal April 16, following advice from the Police Service Commission and consultation with the minister of Internal Affairs, Andrew Napuat.

Tallis previously suspended Nalpini on Sept. 19, 2018, on the advice of the commission, and after consultation with the minister responsible for police.

Nalpini had served as police commissioner for a year and four months before his suspension in September.

Sources have told the Vanuatu Daily Post that Nalpini's sacking was based on serious misconduct in his office, and that he had attempted to file a case against the Police Service Commission but the matter was discontinued before the Supreme Court last month.

The late former President Baldwin Lonsdale appointed Nalpini to the top police position in 2017, after court battles dating back to 2016. At the time, he urged Nalpini to prioritize the unity of all force members and discipline in the force.

Lonsdale, who was aware of division within the force, asked Nalpini to settle the matter for the sake of the nation and to ensure public confidence in the police.

Acting commissioners

Before Nalpini's appointment, the role of police commissioner was filled by five acting commissioners over almost four years.

The commissioner is a law graduate who entered the force through the normal police recruitment two decades ago.

Robson Iwavo, commander of the Vanuatu Mobile Force, is now the acting police commissioner.

Peru to sign agreement to join China's Belt and Road

By Marco Aquino
Reuters

LIMA - Peru will sign a memorandum of understanding to join China’s Belt and Road infrastructure initiative in coming days, China’s ambassador said on Wednesday, despite recent warnings from the United States about Beijing’s rise in Latin America.

Ambassador Jia Guide made the announcement to guests at a private party in Lima alongside Peru’s vice president, as China kicked off a three-day Belt and Road summit in Beijing that Peru’s trade minister and leaders from around the world are attending.

The deal will make Peru one of a few Latin American nations to formally join China’s flagship infrastructure policy, underscoring how countries around the world are being drawn into China’s orbit by the promise of investment and despite U.S. objections.

Vice President Mercedes Araoz said Peru’s relationship with Washington would remain strong.

“Signing this memorandum of understanding is the start of a cooperation model that China has proposed to the world which ... will allow us to broaden our ties,” Araoz told Reuters at the event following Jia’s announcement.

“We’ve established very strong bilateral relations with China as we have with the United States,” she said.

Chinese President Xi Jinping first pitched its “One Belt, One Road” policy in 2013 as a way to expand Beijing’s links with Asia, Africa and Europe through billions of dollars in infrastructure investments.

But early last year, China invited Latin American and Caribbean countries to sign up as well, as it seeks to deepen its ties in a resource-rich region where U.S. influence is historically strong.

Chile, which like Peru is a close ally of the United States, announced in November that it was joining the initiative.

Peru’s decision to sign up as well comes within two weeks of a state visit from U.S. Secretary of State Mike Pompeo, who repeatedly warned about the risks of what he described as Chinese predatory lending on his recent four-nation tour of South America.

Britain must commit to carbon capture to meet climate goals

LONDON (Reuters) - Britain must commit to projects to capture, store and use carbon dioxide emissions to meet its climate targets, a report from a cross-party group of lawmakers said Thursday.

The report comes ahead of a recommendation due next week on whether and how the government could strengthen its climate target to a goal of net zero emissions, by Britain’s independent climate advisers, the Committee on Climate Change.

The country’s current target is to cut its greenhouse gas emissions by 80 percent compared with 1990 levels by 2050.

“Carbon capture usage and storage (CCUS) will be necessary to meet the UK’s existing climate change targets at least cost,” the report by the Business, Energy and Industrial Strategy, or BEIS, Committee said.

CCUS involves the capture of emissions from power plants and industry to allow them to be compressed and stored for use in industrial applications such as making drinks fizzy.

Campaigners have said the government’s current target does not go far enough to meet pledges made under the Paris climate agreement to try to limit a rise in global warming to 1.5 degrees Celsius, and that a net zero target should be set. The BEIS Committee report said CCUS technology could be vital for a net zero target to be met.

“Failure to deploy CCUS could also mean the UK could not credibly adopt a ‘net zero emissions’ target,” the report said.

Britain last year said it plans to develop the country’s first large-scale project to capture, store and use carbon dioxide emissions by the mid-2020s.

B. Procedures - Board Member Attendance via Video Teleconference (“VTC”)

The second item discussed was Board member attendance via VTC. Executive Manager Ada informed the Board that legislation had passed that allows Board members to participate in Board meetings via VTC, and allows a quorum to be established by participation via VTC. The law requires the Board to develop rules and regulations on the use of VTC. Management presented proposed Policies and Procedures for Board Member Attendance at Board Meeting via Video Teleconference for the Board’s approval, which was included as part of the Board’s packet. Legal counsel, Janalynn Damian, added that the procedures set basic parameters for the technology that GIAA may procure, and went over the proposed policies and procedures. 7. REPORT OF THE EXECUTIVE MANAGER

Reference is made to the Executive Manager’s Report included as part of the Board’s packet, which was presented by Executive Manager Ada.

Executive Manager Ada informed the Board that a number of critical change orders for ongoing CIP projects were executed and he is seeking Board ratification:

- Change Order 5 ($1.95M): Two (2) Travelators/Moving Walkways for the International Arrivals Corridor.
- Pending finalization of documents for Change Order 6.1 ($3.21M): Construction of two (2) new TSA security inspection lanes and optimization of existing five (5) lanes.

Discussion was held on the request. Chairman Duenas inquired whether Board approval was necessary for the change orders. Discussion followed regarding the cap on the Executive Manager’s authorization, which was set by a prior Board at $100K. Chairman Duenas noted that it would be prudent to ratify.

Comptroller John Rios confirmed that funds are available for the three (3) Change Orders. The Comptroller briefed the Board on where the funds are coming from.

After further discussion, on motion duly made by Director Camacho, seconded by Director Sobti, the following resolution was unanimously approved:

**Resolution No. 19-28**

Further, the Board hereby approves:

- Change Order No. 6.1, as presented, for the construction of two (2) new TSA security inspection lanes and optimization of the existing five (5) lanes, in the total amount of $3.21M, subject to negotiation and completion of the change order documents.
Executive Manager Ada then updated the Board on the Capital Improvement Projects that are in progress.

- Aircraft Rescue Firefighting Facility – Anticipated Notice to Proceed - April 2, 2019
- Federal Grants – FAA satisfied with progress of projects; additional funding expected for 2020/2021
- Terminal Building Structural Upgrade: at 30% with an additional nine months

Executive Manager Ada then briefed the Board on Legislative issues with regard to the refunding of the Series 2013 bonds. Bond counsel is reviewing draft legislation authorizing the refunding, which is anticipated to be introduced in the next few weeks. It is anticipated that through a refunding GIAA will realize $12M up front through restructuring.

Chairman Duenas inquired if any of the invoices are subject to reimbursement by Lotte Duty Free. Attorney Damian informed the Board that the fees related to work performed on non-specialty retail matters such as the DFS Arbitration matter and the Terlaje lawsuit, before the matter was handed over to Attorney Thompson.

EXECUTIVE SUMMARY  

REQUEST FOR PROPOSAL (RFP) NO. 002- FY19  
PROJECT No. GIAA-FY16-08-3  
AIP No. 3-66-0001-102  

CONSTRUCTION MANAGEMENT SERVICES FOR  
GIAA TERMINAL AIRCRAFT APRON AND TAXIWAY REHABILITATION  

April 30, 2019  

Purpose  

Board action is requested to approve the ranking results and award for Request For Proposals (RFP) No. GIAA-002-FY19 for Construction Management Services for GIAA Terminal Aircraft Apron and Taxiway Rehabilitation.  

Background  

The referenced RFP solicits proposals from qualified firms and/or individuals to provide professional construction management services for the construction/rehabilitation of the Antonio B. Won Pat International Airport, Guam’s main terminal apron and taxiways. The preliminary scope of work includes, but is not limited to, administration of the construction contract, project administration and closeout, preparation of payment estimates, processing of construction change orders and claims/disputes, on-site inspections, quality assurance and reporting, and advising GIAA in remaining in compliance with FAA AIP project requirements.  

The Firm or Consultant is required to have particular expertise in the contract and project management of construction projects. Also, the firm must be knowledgeable of FAA AIP project requirements.  

Procurement Background  

The above referenced RFP was advertised in the local newspapers throughout the months of February and March 2019. The established deadline to submit the proposals was March 26, 2019, 4:00 p.m.  

A total of twenty-two (22) firms registered with GIAA and five (5) firms responded by submitting their proposals before the submission deadline.
Proposal Analysis and Evaluation

The five (5) proposals were reviewed to determine responsiveness, that is, whether or not the proposers submitted all documents required by the RFP. The five (5) proposers were determined to be responsive subject to the following:

Certification of Proposer Regarding Tax Delinquency and Felony Convictions - A Certification of Proposer Regarding Tax Delinquency and Felony Convictions was included as part of the RFP (“Tax Certification”). As a recipient of FAA Airport Improvement Program (“AIP”) funds, GIAA is required to include certain provisions in its solicitation documents and contracts, such as the Tax Certification. Inclusion of the Tax Certification is determined pursuant to guidance provided by the FAA for all AIP recipients - Contract Provision Guidelines for Obligated Sponsors and Airport Improvement Program Projects (“FAA Guidelines”). Pursuant to the FAA Guidelines, inclusion of the Tax Certification is “required,” meaning it is a provision that must be incorporated into procurement documents.

Section 3114 of the Procurement Regulations, which govern hiring of professionals, provides that the Executive Manager, as the head of the purchasing agency or a designee “shall evaluate all proposals submitted and may conduct discussions with any offeror. The purposes of such discussions shall be to: (A) determine in greater detail such offeror’s qualifications …” 2 GARR Div. 4 § 3114(i)(1)(A).

Upon review of the proposals submitted, it was discovered that Proposers A and B included a signed Tax Certification with their respective proposal submissions, but failed to mark the appropriate boxes indicating whether or not they have any federal tax liability or felony convictions. As the Procurement Regulations permit the Executive Manager or his designee to conduct discussions with proposers to “determine such offeror’s qualifications for further consideration,” see 5 GCA § 5216(d), I find that it is necessary to have Proposer A and Proposer B complete their Tax Certifications to determine their qualification to provide the solicited services. I further find that Proposer A and B’s submission of a signed Tax Certification indicates their intent to comply with the RFP requirements and their failure to mark the appropriate box on the Tax Certification was an inadvertent oversight that will not prejudice other proposers if corrected.

License to Provide Construction Management Services - The RFP provides that “Proposers must be licensed to do business on Guam at the time of submission of their proposals. Proposers are required to submit with their proposals a copy of their current Certificate of Authorization (“COA”) to provide construction management services issued by the Guam Board of Professional Engineers, Architects, and Land Surveyors.” (Basic Information, Section 4.) It was GIAA’s intent in requiring that proposers provide the appropriate PEALS license to ensure that the awardee is legally licensed under Guam’s PEALS licensing law to provide the construction management services solicited under the RFP.
Proposer B provided copies of PEALS license #224 for Civil and Structural Engineering Services and for Land Surveying Services. Proposer B also provided a copy of its Guam business license, which references PEALS license # 224 and states the license is for “Engineering, Land Surveying & Construction Consulting Services.” Although Proposer B did not provide a copy of PEALS license #224 for Construction Management Services, it did provide a Guam business license that references its PEALS license and that includes construction management services. Accordingly, I find that Proposer B complied with the RFP requirement that proposers provide proof of licensure at the time of proposal submission.

The Evaluation Committee appointed by me completed their evaluations of the five (5) proposals and the evaluations were found to be based on the criteria set forth in the RFP. The score sheets were gathered and tabulated by the Procurement Office and the evaluation results in the order of ranking are as follows:

1. Proposer A
2. Proposer B
3. Proposer C
4. Proposer D
5. Proposer E

Legal Review

Upon Board approval, a contract will be forwarded to Legal Counsel for review and approval as to form. The term of the contract is for period of five (5) years from the issuance of the Notice to Proceed, subject to the availability of funding.

Financial Review

The Construction Management Services for GIAA Terminal Aircraft Apron and Taxiway Rehabilitation contract will be funded under an AIP grant.

Recommendation

I recommend that the Board allow Proposer A & B to submit their completed Tax Certifications. I further recommend that the Board approve the ranking results and the contract award to Proposer A for the Construction Management Services for GIAA Terminal Aircraft Apron and Taxiway Rehabilitation contract, subject to Proposer A’s submission of a completed Tax Certification and negotiation of fair and reasonable fees to be submitted by the proposer at a time and in a format determined by GIAA. If GIAA is unable to negotiate a contract with the highest ranked proposer, the Executive Manager or designee, may enter into negotiations with the next most qualified proposer and so forth, consistent with the Guam Procurement Law & Regulations.

MEMORANDUM

TO: Thomas C. Ada
   Executive Manager

VIA: Jean M. Arriola
   Airport Services Manager

FROM: Management Analyst III

SUBJECT: Evaluation and Recommendation - Request For Proposal (RFP)
Construction Management Services for GIAA Terminal Aircraft Apron and Taxiway
Rehabilitation,
RFP No. GIAA-002-FY19
Project No. GIAA-FY16-08-3
AIP No. 3-66-0001-02

The referenced Request for Proposal (RFP) solicits interest from qualified firms and/or individuals to provide professional construction management services for the construction/rehabilitation of the Antonio B. Won Pat International Airport, Guam’s main terminal apron and taxiways. The advertisement for this RFP was published in the local newspaper throughout the months of February and March 2019. The deadline to submit proposals was established at March 26, 2019, 4:00 p.m.

A total of twenty-two (22) firms and/or individuals registered with GIAA and five (5) firms submitted proposals before the submission deadline.

Proposal Review for Responsiveness

The five (5) proposals were reviewed to determine responsiveness, that is, whether or not the proposers submitted all documents required by the RFP. The five (5) proposers were determined to be responsive subject to the following:

Certificate of Buy American Compliance for Manufactured Products - A Certificate of Buy American Compliance for Manufactured Products ("Buy American Certificate") was included as part of the RFP. As a recipient of FAA Airport Improvement Program ("AIP") funds, GIAA is required to include certain provisions in its solicitation documents and contracts, such as the Buy American Certificate. Inclusion of the Buy American Certificate is determined pursuant to guidance provided by the FAA for all AIP recipients - Contract Provision Guidelines for Obligated Sponsors and Airport Improvement Program Projects ("FAA Guidelines"). With regard to the Buy American Certificate, the FAA Guidelines provide that its application to Professional Services is "Limited," meaning it is a provision with limited applicability depending on circumstances of the procurement.

The FAA Guidelines further provide as follows with regard to Professional Services:

Professional service agreements (PSAs) do not normally result in a deliverable that meets the definition of a manufactured product. However, the emergence of various project delivery methods has created situations where task deliverables under a PSA may include a manufactured product. If a PSA includes providing a manufactured good as a deliverable
under the contract, the sponsor must include the Buy American Preference provision in the agreement.

Although the Buy American Certificate was included in the above-referenced RFP, GIAA has determined that the CM services solicited do not include providing a manufactured good as a deliverable under the contract. Accordingly, proposers responding to the RFP are not required to comply with the Buy American Preference nor submit a Buy American Certificate.

**Certification of Proposer Regarding Tax Delinquency and Felony Convictions** - A Certification of Proposer Regarding Tax Delinquency and Felony Convictions was included as part of the RFP ("Tax Certification"). Pursuant to the FAA Guidelines, inclusion of the Tax Certification is "required," meaning it is a provision that must be incorporated into procurement documents.

Section 3114 of the Procurement Regulations, which govern hiring of professionals, provides that the Executive Manager, as the head of the purchasing agency or a designee "shall evaluate all proposals submitted and may conduct discussions with any offeror. The purposes of such discussions shall be to: (A) determine in greater detail such offeror’s qualifications ..." 2 GARR Div. 4 § 3114(i)(1)(A).

Upon review of the proposals submitted, it was discovered that Proposers A and B included a signed Tax Certification with their respective proposal submissions, but failed to mark the appropriate boxes indicating whether or not they have any federal tax liability or felony convictions. As the Procurement Regulations permit the Executive Manager or his designee to conduct discussions with proposers to "determine such offeror’s qualifications for further consideration," see 5 GCA § 5216(d), it is recommended that the Executive Manager request that Proposer A and Proposer B complete their Tax Certifications to determine their qualification to provide the solicited services. It appears that Proposer A and B’s submission of a signed Tax Certification indicates their intent to comply with the RFP requirements and their failure to mark the appropriate box on the Tax Certification was an inadvertent oversight that will not prejudice other proposers if corrected.

**License to Provide Construction Management Services** - The RFP provides that "Proposers must be licensed to do business on Guam at the time of submission of their proposals. Proposers are required to submit with their proposals a copy of their current Certificate of Authorization ("COA") to provide construction management services issued by the Guam Board of Professional Engineers, Architects, and Land Surveyors." (Basic Information, Section 4.) It was GIAA’s intent in requiring that proposers provide the appropriate PEALS license to ensure that the awardee is legally licensed under Guam’s PEALS licensing law to provide the construction management services solicited under the RFP.

Proposer B provided copies of PEALS license #224 for Civil and Structural Engineering Services and for Land Surveying Services. Proposer B also provided a copy of its Guam business license, which references PEALS license # 224 and states the license is for “Engineering, Land Surveying & Construction Consulting Services.” Although Proposer B did not provide a copy of PEALS license #224 for Construction Management Services, it did provide a Guam business license that references its PEALS license and that includes construction management services. Accordingly, I find that Proposer B complied with the RFP requirement that proposers provide proof of licensure at the time of proposal submission.

**Evaluation and Selection**

Pursuant to Basic Information, Section 8: Selection of Best Qualified Proposer and Proposal of the RFP, after receipt of all proposals, the GIAA Evaluation Committee established by the Executive Manager shall conduct an independent evaluation based on the evaluation criteria set forth in the RFP.

The Evaluation Committee established to evaluate the proposers’ qualifications was comprised of the following individuals:
I have reviewed the Evaluation Committee members’ evaluations and find them to be based only on the evaluation criteria set forth in the RFP. The scores were tabulated as reflected on the attached summary worksheet. As a result of my tabulation, the proposers in the order of their ranking are as follows:

1. Proposer A
2. Proposer B
3. Proposer C
4. Proposer D
5. Proposer E

Attached is the summary of the Committee’s evaluation scores based on the evaluation criteria set forth in the RFP for your reference. Should you have any questions or would like to discuss this matter further, I am available at your request.

Recommendation

It is recommended that a memorandum noting that proposers responding to the RFP are not required to comply with the Buy American Preference nor submit a Buy American Certificate for the reasons set forth above be part of the Procurement File. Further, it is recommended that the memorandum also note that Proposer B complied with the RFP requirement that proposers provide proof of licensure at the time of proposal submission by submitting a Guam business license that references Proposer B’s PEALS license for construction management services.

Pursuant to 5 GCA § 5216(d), it is recommended that Proposer A & B be permitted to complete their Tax Certifications to determine their qualification to provide the solicited services.

If the above-noted oversight in Proposer A & B’s proposals are allowed to be corrected, all proposers will be deemed to have met the standards of responsibility and responsiveness outlined in the Guam Procurement Law & Regulations and RFP. Therefore, it is recommended to approve the ranking results and the contract award to Proposer A for the Construction Management Services for GIAA Terminal Aircraft Apron and Taxiway Rehabilitation, subject to Proposers A and B submitting their completed Tax Certification and negotiation of fair and reasonable fees. If GIAA is unable to negotiate a contract with the highest ranked Proposer, the Executive Manager or designee, may enter into negotiations with the next most qualified Proposer and so forth, consistent with the Guam Procurement Law & Regulations.

Executive Summary

Purpose

Board action is requested to approve the ranking results based on the evaluation process performed through the Request For Proposals (RFP) No. GIAA-003-FY19 for Construction Management Services for Runway 6L/24R Rehabilitation.

Background

The referenced RFP solicits proposals from qualified firms and/or individuals to provide professional construction management services for the construction/rehabilitation of the Antonio B. Won Pat International Airport, Guam’s Runway 6L/24R. The preliminary scope of work includes, but not limited to, administration of the construction contract, project administration and closeout, preparation of payment estimates, processing of construction change orders and claims/disputes, on-site inspections, quality assurance and reporting, and advising GIAA in remaining in compliance with FAA AIP project requirements.

The Firm or Consultant is required to have particular expertise in the contract and project management of construction projects. Also, the firm must be knowledgeable of FAA AIP project requirements.

Procurement Background

The above referenced RFP was advertised in the local newspapers throughout the month of March 2019. The established deadline to submit the proposals was April 5, 2019, 4:00 p.m.

A total of eighteen (18) firms showed their interest by obtaining the RFP package and three (3) firms responded by submitting their proposal before the submission deadline.
The Evaluation Committee has completed their evaluations and the score sheets were gathered and tabulated by the Procurement Office. The evaluation results in the order of ranking are as follows:

1. Proposer A  
2. Proposer C  
3. Proposer B

Proposal Analysis and Evaluation

Certificate of Buy American Compliance for Manufactured Products - A Certificate of Buy American Compliance for Manufactured Products ("Buy American Certificate") was included as part of the RFP. As a recipient of FAA Airport Improvement Program ("AIP") funds, GIAA is required to include certain provisions in its solicitation documents and contracts, such as the Buy American Certificate. Inclusion of the Buy American Certificate is determined pursuant to guidance provided by the FAA for all AIP recipients - Contract Provision Guidelines for Obligated Sponsors and Airport Improvement Program Projects ("FAA Guidelines"). With regard to the Buy American Certificate, the FAA Guidelines provide that its application to Professional Services is "Limited," meaning it is a provision with limited applicability depending on circumstances of the procurement.

The FAA Guidelines further provide as follows with regard to Professional Services:

Professional service agreements (PSAs) do not normally result in a deliverable that meets the definition of a manufactured product. However, the emergence of various project delivery methods has created situations where task deliverables under a PSA may include a manufactured product. If a PSA includes providing a manufactured good as a deliverable under the contract, the sponsor must include the Buy American Preference provision in the agreement.a

Although the Buy American Certificate was included in the above-referenced RFP, GIAA has determined that the CM services solicited do not include providing a manufactured good as a deliverable under the contract. Accordingly, proposers responding to the RFP are not required to comply with the Buy American Preference nor submit a Buy American Certificate.

Legal Review

Upon Board approval, a contract will be forwarded to Legal Counsel for review and approval as to form. The term of the contract is for period of five (5) years from the issuance of the Notice to Proceed, subject to the availability of funding.

a FAA Guidelines at p. 7 (Issued June 19, 2018).
Financial Review

The *Construction Management Services for Runway 6L/24R Rehabilitation* contract will be funded under an AIP grant.

Recommendation

It is moved that the Board approve the ranking results and the contract award to **Proposer A** for the *Construction Management Services for Runway 6L/24R Rehabilitation* contract, subject to negotiations of fair and reasonable fees to be submitted by the offeror at a time and in a format determined by GIAA. If GIAA is unable to negotiate a contract with the highest ranked Proposer, the Executive Manager or designee, may enter into negotiations with the next most qualified Proposer and so forth, consistent with the Guam Procurement Law & Regulations.

Construction Management Services for Runway 6L/24R Rehabilitation,
RFP No. G1AA-003-FY19
Project No. G1AA-FY18-01-2
AIP No. 3-66-0001-TBD

The referenced Request for Proposal (RFP) solicits interests from qualified firms and/or individuals to provide professional construction management services for the construction/rehabilitation of the Antonio B. Won Pat International Airport, Guam’s Runway 6L/24R. The advertisement for this RFP was published in the local newspaper throughout the month of March 2019. The deadline to submit proposals was established at April 5, 2019, 4:00 p.m.

A total of eighteen (18) firms and/or individuals acknowledged receipt of the RFP package and three (3) firms submitted proposals before the submission deadline.

Proposal Analysis

Certificate of Buy American Compliance for Manufactured Products - A Certificate of Buy American Compliance for Manufactured Products (“Buy American Certificate”) was included as part of the RFP. As a recipient of FAA Airport Improvement Program (“AIP”) funds, G1AA is required to include certain provisions in its solicitation documents and contracts, such as the Buy American Certificate. Inclusion of the Buy American Certificate is determined pursuant to guidance provided by the FAA for all AIP recipients - Contract Provision Guidelines for Obligated Sponsors and Airport Improvement Program Projects (“FAA Guidelines”). With regard to the Buy American Certificate, the FAA Guidelines provide that its application to Professional Services is “Limited,” meaning it is a provision with limited applicability depending on circumstances of the procurement.

However, the emergence of various project delivery methods has created situations where task deliverables under a PSA may include a manufactured product. If a PSA includes providing a manufactured good as a deliverable under the contract, the sponsor must include the Buy American Preference provision in the agreement. 1

Although the Buy American Certificate was included in the above-referenced RFP, G1AA has determined that

the CM services solicited do not include providing a manufactured good as a deliverable under the contract. Accordingly, proposers responding to the RFP are not required to comply with the Buy American Preference nor submit a Buy American Certificate.

**Evaluation and Selection**

Pursuant to Section 8: Selection of Best Qualified Proposer and Proposal of Basic Information of the RFP documents, after receipt of all proposals, the GIAA Evaluation Committee conducted an independent evaluation for the purpose of determining if the proposals were responsive, based on the evaluation criteria set forth in the RFP, and if the offerors have met the standards of responsibility outlined in the Guam Procurement Law & Regulations.

The committee which Management established to evaluate the offerors’ qualifications included the following:

1. Victor Cruz, Engineering Supervisor
2. Antonio O. Laniog, Jr., Engineer III
3. Delbert N. Benlot, Engineer II

The committee completed their evaluation and the scores were tabulated as reflected on the attached summary worksheet. As a result of our tabulation, the firms selected in the order of their ranking are as follows:

1. Proposer A
2. Proposer C
3. Proposer B

Attached is the summary of the committee’s evaluation scores based on the evaluation criteria set forth in the RFP for your reference. Should you have any questions or would like to discuss this matter further, I am available at your request.

**Recommendation**

Based on the tabulation of the evaluation ranking, it is determined that Proposer A was deemed as the best qualified, responsive firm to perform the required services in accordance with the criteria set forth in the RFP. Also, as a result of our review of the offeror’s submitted required documents, Proposer A has been deemed to have met the standards of responsibility outlined in the Guam Procurement Law & Regulations.

Therefore, it is recommended to approve the ranking results and the contract award to Proposer A for the Construction Management Services for Runway 6L/24R Rehabilitation, subject to negotiations of fair and reasonable fees. If GIAA is unable to negotiate a contract with the highest ranked Proposer, the Executive Manager or designee, may enter into negotiations with the next most qualified Proposer and so forth, consistent with the Guam Procurement Law & Regulations.

Bill No. ________

Introduced By: ______________

AN ACT TO AMEND AN ACT TO AMEND § 1216 TO CHAPTER 1, TITLE 12, GUAM CODE ANNOTATED, RELATIVE TO AUTHORIZING THE ISSUANCE OF REVENUE BONDS OF THE A.B. WON PAT INTERNATIONAL AIRPORT AUTHORITY, GUAM, TO REFUND ALL OR A PORTION OF ITS OUSTANDING GENERAL REVENUE BONDS FROM TIME TO TIME.

BE IT ENACTED BY THE PEOPLE OF GUAM:

Section 1. Legislative Findings and Intent.

(a) Section 1216 of Title 12 of the Guam Code Annotated provides that Antonio B. Won Pat International Airport Authority, Guam (the “Authority”), is authorized to incur indebtedness by the issuance of general revenue bonds for the purpose of refunding any general revenue bonds of the Authority then outstanding.

(b) Section 1208 of Title 12 of the Guam Code annotated provides that no general revenue bonds of the Authority shall be issued unless authorized by the Board of the Authority in a bond resolution adopted by it and approved by I MagaladenGuahan and unless I LihesluranGuahan approves the terms and conditions of the bonds.

(c) Section 50103 of Title 12 of the Guam Code Annotated provides that public corporations of the government of Guam, including the Authority, shall issue bonds and other obligations only by means of, and through the agency of the Guam Economic Development Authority (“GEDA”), and that GEDA shall not sell any bond
without the approval by I Lihaslutan Guahan of the terms and conditions of the bonds.

(d) Based on low interest rates and current market conditions, the Authority expects to be able to refund all or a portion of its outstanding General Revenue Bonds, 2013 Series A, General Revenue Bonds, 2013 Series B and/or its General Revenue Bonds, 2013 Series C (the “2013 Bonds”) for debt service savings.

(e) In addition, the Authority anticipates that opportunities may arise to refund all or a portion of additional Authority general revenue bonds in the future for debt service savings (collectively with the 2013 Bonds, the “prior bonds”).

In order to benefit the airport and the tourism industry that depends on the airport, I Lihaslutan Guahan has determined to approve the issuance of revenue bonds by the Authority to refund all or a portion of its prior bonds, all subject to approval by I Maga’lahen Guahan and the Board of Directors of GEDA in accordance with law.

Section 2. § 1216 to Chapter 1, Title 12, Guam Code Annotated is hereby amended and restated to read as follows:

“(a) The Board may authorize the issuance of refunding bonds from time to time for the purpose of refunding any or a portion of bonds then outstanding and issued under this Article, whether or not such outstanding bonds have matured or are then subject to redemption. The Board may provide for the issuance of a single issue of bonds for the combined purposes of (i.) financing the cost of improvement or expansion of the airports, and (ii.) refunding bonds which shall theretofore have been issued by the Authority and shall then be outstanding, whether or not such outstanding bonds have matured or are then subject to redemption. Nothing in this Section shall require or be deemed to require the Authority to elect to redeem or prepay bonds being refunded, or to redeem or repay bonds being refunded which were issued in the
form customarily known as term bonds in accordance with any sinking fund installment schedule specified in the bond resolution authorizing the issuance thereof, or, in the event the Authority elects to redeem or prepay any such bonds, to redeem or prepay as of any particular date or dates. The issuance of such bonds, the maturities and other details thereof, the rights and remedies of the holders thereof, and powers, privileges, duties and obligations of the Authority with respect to the bonds shall be governed by the provisions of this Article insofar as those provisions may be applicable.

(b)  *I LiheslaturanGuahan*, pursuant to §1208(a) and §50103(k) of Title 12 of the Guam Code Annotated, hereby approves the terms and conditions of the issuance of general revenue bonds by the Authority for the purpose of refunding all or a portion of the Authority’s outstanding General Revenue Bonds (herein the “prior bonds”) in accordance with the following requirements, limitations, terms and conditions:

(1) All obligation of the Authority to pay debt service on, and the redemption price of, the prior bonds refunded shall be discharged concurrently with the issuance of the refunding bonds. Thereafter, such prior bonds shall be payable solely from and secured solely by an escrow established for such purpose in accordance with the Authority’s existing bond indenture.

(2) Such bonds shall be issued and sold in compliance with the provisions of Article 2 of Chapter 1 of Title 12 of the Guam Code Annotated, including approval of the bond resolution by the Board of Directors of the Authority and by *I Maga’lahen Guahan* as provided therein.

(3) The sale of the bonds shall be approved by the Board of Directors of GEDA as provided by Chapter 50 of Title 12 of the Guam Code Annotated.

(4) The debt service savings resulting from the issuance of the refunding bonds shall be not less than an amount equal to two percent (2%) of
the principal amount of the prior bonds refunded. Debt service savings is defined for this purpose to be the amount by which the present value of debt service on the prior bonds exceeds the present value of debt service on the refunding bonds, using the yield on the refunding bonds as the discount rate for purposes of calculating present value.

(5) Such refunding bonds shall have a principal amount or principal amounts sufficient to provide funds for the payment of all or a portion of the prior bonds refunded and in addition for the payment of all expenses incident to the calling, retiring or paying of such prior bonds and the issuance of such refunding bonds, including:

(A) the difference in amount between the par value of the refunding bonds and any amount less than par for which the refunding bonds are sold;

(B) any amount necessary to be made available for the payment of interest upon such refunding bonds from the date of sale thereof to the date of payment of the prior bonds or to the date upon which the prior bonds will be paid pursuant to the call thereof or agreement with the holders thereof;

(C) the premium, if any, necessary to be paid in order to call or retire the prior bonds and the interest accruing thereon to the date of the call or retirement; and

(D) any additional amount needed to provide for a deposit to the debt service reserve in connection with the issuance of the refunding bonds.
Section 3. Severability. The provisions outlined in this Act are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section or portion of this statute, or the invalidity of the application thereof to any person or circumstance shall not affect the validity of the remainder of this statute or the validity of its application to other persons or circumstances.
