

# **IMPROVING** our Infrastructure **& ENHANCING** GUAM's **BUSINESS** Investment Potential

## **PUBLIC | Finding of No Significant NOTICE | Impact & Record of Decision**

The Federal Aviation Administration has announced that a "Finding of No Significant Impact and Record of Decision" (FONSI/ROD) has been approved based upon results of a Final Environmental Assessment prepared in August 2012 by the U.W. Department of Transportation Federal Highway Administration and in which the FAA was a cooperating agency. The proposed project is for the construction of the segment of Tiyan Parkway that will cross through the (A.B. Won Pat) Guam International Airport (GUM), Hagatna, Guam.

The following project is addressed by the FONSI/ROD:

- Release of airport land at GUM for sale or lease for use in construction of portions of Tiyan Parkway
- Change to the GUM Airport Layout (ALP) to depict proposed project
- Site preparation, grading, drainage, paving, marking and lighting of the roadway

The FONSI/ROD indicates that the proposed action is consistent with existing objectives as set forth in the National Environmental Policy Act of 1969 and that it will not significantly affect the quality of the human environment.

Copies of the FONSI/ROD and Final Environmental Assessment are available for public inspection at the following locations:

Federal Aviation Administration  
Honolulu Airports District Office  
300 Ala Moana Blvd., Rm 7-128  
Honolulu, Hawaii 96813
